

**PATENT/Docket No. PC9455A**

Appl. No. 09/508,892

Filing Date: March 17, 2000

Amdt. dated July 15, 2004

Reply to Office action of April 19, 2004

This listing of claims will replace all prior versions, and listings, of claims in the application:

**Listing of Claims:**

2524. (Currently Amended) A solid implant comprising at least one parasitocidal compound having an aqueous solubility below 100 µg/ml, and at least one antioxidant, wherein said solid implant is stable for up to 30 weeks at 30°C at an when exposed to electron irradiation level of up to 25 kGy.

2622. (Currently Amended) The solid implant of claim ~~24~~ 25, wherein said solid implant is stable for up to 30 weeks at 30°C at an electron irradiation level of up to 20 kGy.

2723. (Currently Amended) The solid implant of claim ~~24~~ 25, wherein said solid implant is stable for up to 30 weeks at 30°C at an electron irradiation level of up to 15 kGy.

2824. (Currently Amended) The solid implant of claim ~~24~~ 25, further comprising one or more tableting excipients.

2925. (Currently Amended) The solid implant of claim ~~24~~ 28, wherein said one or more tableting excipients include a bulking agent.

3026. (Currently Amended) The solid implant of claim ~~25~~ 29, wherein said bulking agent is lactose.

3127. (Currently Amended) The solid implant of claim ~~24~~ 25, wherein said one or more tableting excipients include magnesium stearate.

3228. (Currently Amended) The solid implant of claim ~~24~~ 28, wherein said one or more tableting excipients include a tablet disintegrant.

3329. (Currently Amended) The solid implant of claim ~~28~~ 32, wherein said tablet disintegrant is sodium starch glycolate.

3430. (Canceled) The solid implant of claim ~~24~~ 25, wherein said at least one parasitocidal compound has an aqueous solubility below 100 mg/ml.

3534. (Currently Amended) The solid implant of claim ~~24~~ 25, wherein said at least one parasitocidal compound is Doramectin.

3632. (Currently Amended) The solid implant of claim ~~24~~ 25, wherein said at least one antioxidant is butylated hydroxy toluene or butylated hydroxy anisole.

37. (New) The solid implant of claim ~~24~~ 25, wherein said solid implant is stable for up to 30 weeks at 30°C at an electron irradiation level of up to 25 kGy.
